

Divya Davane

Mumbai – 400067 | +91-9637775648 | divyadavane0@gmail.com | github.com/divyadavane | linkedin.com/in/Divya-Davane

Professional Summary

Results-oriented Software Engineering undergraduate (CGPA 9.1/10) with 3 industry internships spanning full-stack development, machine learning, and data analytics. Built and shipped full-stack web applications featuring AI-driven natural language interfaces, real-time dashboards, and scalable REST APIs. Reduced monthly reporting time by 40% at Godrej Industries via workflow automation. Proficient in JavaScript/TypeScript, React, Next.js, Python, and Microsoft Azure; targeting an entry-level Software Engineer role to build reliable, production-ready products.

Education

Vidyavardhini's College of Engineering and Technology, University of Mumbai

2024 – Present

Bachelor of Engineering – Artificial Intelligence and Data Science

CGPA: 9.1 / 10

- **Coursework:** Data Structures & Algorithms, DBMS, Deep Learning, Big Data Analytics, Data Warehousing, IoT

Internship Experience

Machine Learning Intern

Apr 2026 – Jun 2026

Pratinik Infotech

- Developed and evaluated machine learning models using Python, Scikit-learn, and data preprocessing techniques to solve real-world problems.
- Collaborated with the team to analyze datasets, optimize model performance, and document technical outcomes.

Software Engineer Intern

Feb 2026 – Apr 2026

Labmentix Private Limited

- Developed and maintained software applications by implementing scalable features, debugging code, and optimizing performance.
- Collaborated in Agile teams using Git and modern development practices to deliver high-quality solutions.

Data Analytics Intern

Jan 2025 – Mar 2025

Godrej Industries Ltd., Mumbai, India

- Analyzed large-scale sales and supply-chain records using Python (Pandas, NumPy) and SQL, surfacing insights that guided 3 strategic decisions for senior leadership.
- Developed 5+ Power BI dashboards monitoring KPIs—revenue, inventory turnover, and regional sales—reducing stakeholder reporting time by 30%.
- Built and scheduled ETL workflows that eliminated ~40% of manual data-cleaning work, shortening the monthly reporting cycle from 5 days to 3.

Projects

Aperio – AI-Powered Recycling Traceability Platform — Next.js, TypeScript, AI/LLM Integration

- Built a full-stack traceability platform that converts natural-language entries into structured supply-chain data; delivered real-time dashboards, lifecycle visualizations, and automated carbon-impact analytics across a 7-stage recycling pipeline.

Chronos – Startup Team Operating System — Next.js, Full-Stack, AI Integration

- Developed an all-in-one workspace unifying task management, documentation, and team communication with integrated AI assistance for early-stage startup teams.

Artificial Consciousness Simulator — Next.js, Interactive Data Visualization

- Built an interactive learning platform simulating multiple AI-consciousness theories (GWT, IIT, Predictive Processing) with adjustable-parameter model comparisons, quizzes, and analytics dashboards.

DVH Travel Planner — React Native, Flutter, JavaScript, Dart

- Cross-platform mobile app with an ML-powered hotel recommendation engine (budget, location, user type); returns top-3 ranked options to cut booking search time significantly.

Nextus – Financial SaaS Platform — Next.js, RESTful APIs, JWT, RBAC

- Banking platform supporting multi-account aggregation and real-time fund transfers across 4 account types; secured with JWT authentication and role-based access control.

Technical Skills

Languages: JavaScript, TypeScript, Python, SQL, Java, C, HTML/CSS

Frameworks & Libraries: React.js, Next.js, React Native, Flutter, Node.js, Flask, Streamlit

Tools & Cloud: Git, MySQL, Microsoft Azure, RESTful APIs, JWT, Power BI, Tableau

AI / ML: TensorFlow, PyTorch, Scikit-Learn, CNN, RNN/LSTM, Transfer Learning, LLM Integration

Soft Skills: Communication, Teamwork, Technical Documentation, Content Writing, Adaptability

Awards, Activities & Languages

- **2nd Place** – Oscillations National Paper Presentation, India — NeuroRender: Rendering Thoughts into Images (Apr 2025)
- **Winner** – Oscillations National Technical Research Paper Presentation, India (2026)
- **Creative Head** – VCET National Students Data Corps (Jun 2024 – Present)
- **Languages:** English (Professional), Hindi (Professional), Marathi (Professional), French (Beginner)
